

WHICH PLAN IS RIGHT FOR YOU?

Drone Harmony provides the two product editions **Basic** (available in Google Play Store) and **Plus** (available on our website), with the following pricing plans:

Drone Harmony Basic	Drone Harmony Plus			
<p>Basic</p> <p>\$29</p> <p>Lifetime Price</p> 	<p>Pro</p> <p>\$29</p> <p>Monthly</p> 	<p>Business</p> <p>\$99</p> <p>Monthly</p> 	<p>Enterprise</p> <p>Custom</p> 	<p>Academic</p> <p>\$49</p> <p>Monthly</p> 

Description	Lifetime access to recreational flight planning and execution.	Subscribe to fast, safe and professional data capturing in challenging environments.	Your company has several professional grade drones? Switch from Pro to a Business license and scale your high quality data capture operations.	Introducing drone operations at a large scale? Automate & simplify your drone activities using tailored, automated flight planning to ensure reliability and safety.	With the Academic licence students and teachers get easy access to the Drone Harmony flight planner.
Ideal For	Individuals flying their hobby or prosumer drones on holidays and during outdoor activities to record stunning videos and take beautiful pictures.	A small company operating with an Inspire offering complex inspection, mapping and professional cinematographic services.	A drone business performing regular inspections with several professional drones at larger scale, requiring consistent data, reduced time on site and the ability to deal with complex data capture scenarios.	Enterprises with many job sites that require seamless and customized integration of drone operations into company workflow processes.	For universities, research groups and institutions with research projects involving professional drone flying.
Benefits	Unlock the full potential of your drone with the interactive 3D flight planning environment to get professional looking pictures and videos.	Enable all the benefits of automated and optimized 3D mission planning for your small drone business.	Equip several operators with the capacity to perform automated mission planning with Drone Harmony on a daily basis, on several sites and in parallel. Acquire data reliably and quickly.	Customize and integrate Drone Harmony into your workflow to enable scalable drone data acquisition for your business.	Enhance your class or research project with automated flight planning and execution.
