

# Which plan is right for you?

	<b>Pro</b> <b>\$29 Monthly</b>	<b>Business</b> <b>\$99 Monthly</b>	<b>Enterprise</b> <b>Custom</b>
<b>Description</b>	Subscribe to fast, safe and professional data capturing in challenging environments.	Your company has several professional grade drones? Switch from Pro to a Business license and scale your high quality data capture operations.	Introducing drone operations at a large scale? Automate & simplify your drone activities using tailored, automated flight planning to ensure reliability and safety.
<b>Ideal For</b>	A small company operating with an Inspire offering complex inspection, mapping and professional cinematographic services.	A drone business performing regular inspections with several professional drones at larger scale, requiring consistent data, reduced time on site and the ability to deal with complex data capture scenarios.	Enterprises with many job sites that require seamless and customized integration of drone operations into company workflow processes.
<b>Benefits</b>	Enable all the benefits of automated and optimized 3D mission planning for your small drone business.	Equip several operators with the capacity to perform automated mission planning with Drone Harmony on a daily basis, on several sites and in parallel. Acquire data reliably and quickly.	Customize and integrate Drone Harmony into your workflow to enable scalable drone data acquisition for your business.
